

# Provision of own delivery bills in the medacom partner shop

Dear medacom partner,

You can provide templates for direct mailing to your customers, which we then use to generate the delivery bills.

For this we need **a PDF templates in DIN-A4 format.**

An example of what this template must look like can be found on the following page.

This template will then be used as background for the delivery bills, in the same way as pre-printed business paper is used for delivery bills.

Send your **template** with your **medacom customer number** to:

[IT@medacom.de](mailto:IT@medacom.de)

With kind regards

Your medacom Team
